

SPECIALISTS IN ANTI-SLIP

“WHO ARE OUR CUSTOMERS?”

London Underground (rail)

M&S Paris (retail)

Lincoln City Street Share Scheme (civil)

London Olympic Village (civil)

Oxford Street, London (retail)

Taj Mahal Palace Mumbai (hospitality)

Great Ormond Street Hospital (healthcare)

REZTRED™ ANTI-SLIP RESIN

ANTI-SLIP RESIN STEP TREADS

Our heavy foot traffic anti-slip resin finishes (Tradenamed – RezTred) can be applied onto virtually any surface including natural stone, terrazzo, ceramic, porcelain, vinyl floors, glazed tiles, metal, wood and glass.

RezTred provides a reliable, long-lasting, R12 slip-resistant Equality Act 2010 compliant profile.

Using Pendulum test BS 7972-2:2002, our resins have a PTV rating of 64 (dry) and 58 (wet) ensuring that they are perfect for both internal and external use.

All products can be retro fitted as well as factory installed.

REZTRED™ ANTI-SLIP RESIN

INDUSTRIAL ANTI-SLIP SOLUTIONS

Our Rez-Tred anti-slip resin installations are perfect for industrial areas such as inspection pits, metal staircases, checkerplate, machinery booths, ramps and industrial kitchens.

With a proven track record across the gas and oil industry as well as precision engineering factories.

BUMPEEZ™ ANTI-SLIP TACTILES

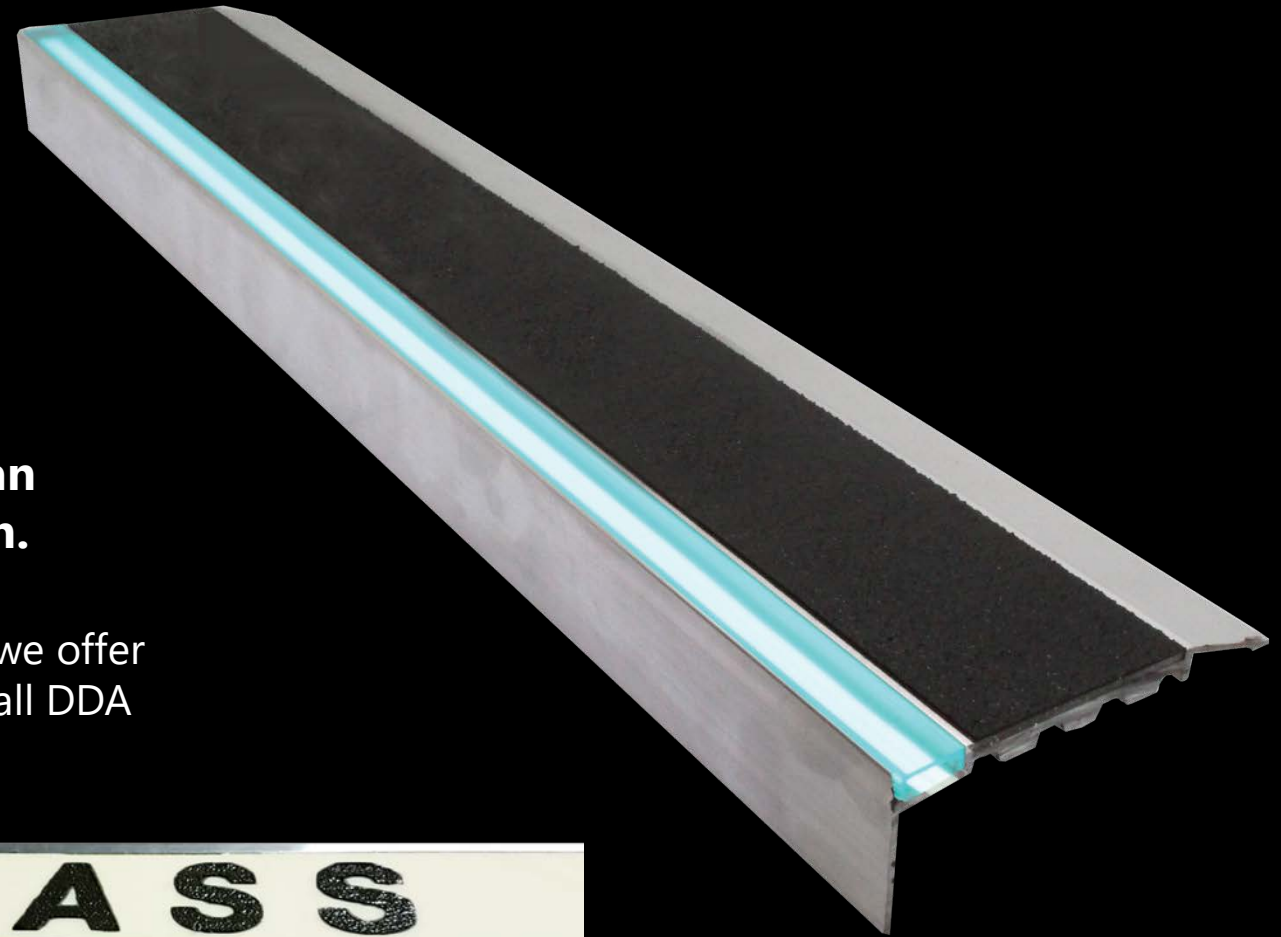

Our products are fully approved by London Underground for use on under-ground and over-ground stations.

Approved under the Section 12, LU 1-085 Fire Safety standard. They are endorsed and used by Network Rail, Transport for London and are utilised worldwide across many industries including many Council 'streets for all' schemes.

 **TASS**
Anti-Slip

ALUMINIUM NOSING PROFILES

Our Rez-Tred anti-slip resins are also available as an aluminium nosing profile offering easy installation.

Using our Reztred resin system ensures that every trim that we offer (whether it be a slim-line or a heavy duty trim) conforms to all DDA requirements and is rated at R12 slip resistance.

Our resins can also be custom made to promote company logos, hazard warnings, directional logos and can incorporate our glow in the dark phosphorescent resins.

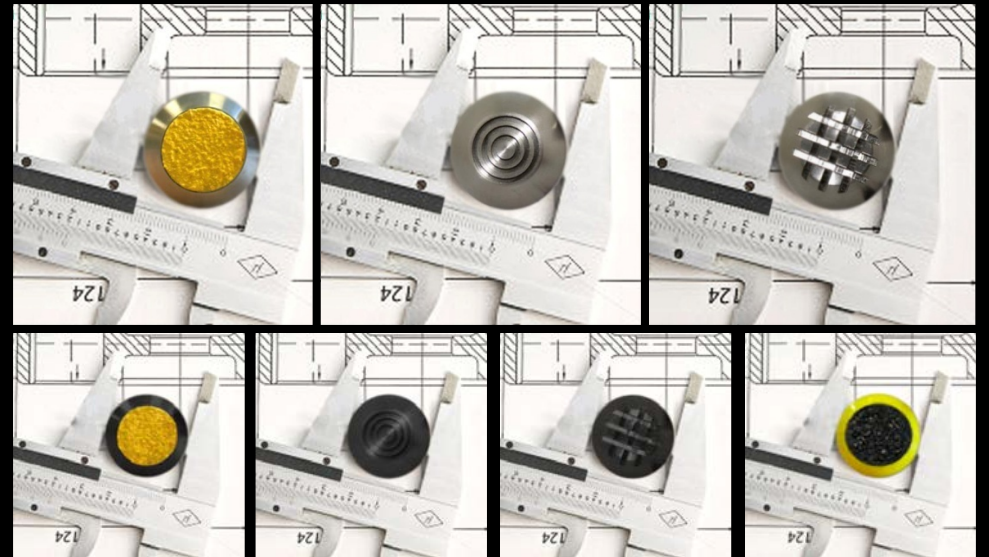

SHANKLESS 3M TACTILE RANGE

Bumpez™ shank-less stainless steel (grade 316) tactiles are a first to market, fully endorsed, health and safety tactile alert system. Developed in conjunction with one of the world's leading technology companies, Bumpez™ are the world's first patented anti-slip tactile system that requires no drilling for installation.

TASS products are incredibly versatile and can provide an instant DDA and Equality Act 2010 compliant tactile surface to any platform edge, stairway or ramp due to their unique installation methods.

The anti-slip inserts are available in a variety of colour options as well as luminous for safety areas. Our luminous products meet the requirements of DIN 67510 part 4 with respect to the luminescence of 10 – 60 minutes. Our 'TASS' range of products are fully compliant with BS 8300: 2009

SHANKED TACTILE RANGE

Stainless Steel Tactiles

All of our stainless steel range are manufactured from grade 316.

Stainless steel grade 316 gives better overall corrosion resistant properties than grade 304 and has particularly higher resistance to pitting and crevice corrosion in external environments.

Our tactiles are milled from one piece to ensure strength, durability and longevity.

All our products come with a full design life warranty

SHANKED TACTILE RANGE

Sustamid Nylon PA12 Thermoplastic Tactiles

Our Sustamid based range of products provide all the benefits of our stainless steel system but with a reduced raw material cost to the consumer.

- Lowest water absorption of all commercial polyamides
- Dimensionally stable
- Exceptional impact and notched impact strength
- Excellent low temperature capability down to -50° C
- Resistant to greases, oils, fuels, solvents and hydraulic fluids
- Exceptional resistance to stress cracking
- Excellent noise and vibration damping properties
- Excellent fatigue resistance under high load changes

HOME GRIP

Sanitary resin discs

Our 'Sanitary' resin range is specifically designed for high slip areas that have bare foot traffic, such as bathtubs, shower cubicles, spas, jacuzzi and saunas etc. DIY kits are also available for ease of use.

Highly durable, non toxic, UV stable, mould resistant with easy maintenance have made this product highly sort after in the hospitality, hotelier and fitness business.
